

The **Jugglebox**™
Circus Theatre Education

Entertaining and motivating performances to complement and enhance curriculum.

What we do:

We provide exciting, education based performances in schools to enhance areas of curriculum.

All performances are circus and comedy based and designed to make educational subjects fun, and therefore more memorable to students.

How we do it:

We come to your school with a fully self-contained performance. We can work in just about any multi-purpose space or auditorium. The best audience size and show suitability is determined clearly with your requirements in need.

What it costs:

Students pay a per head price, so there is no direct cost to the school. We also provide all marketing materials, including posters and flyers for each child to take home so parents can make a fully informed decision.

We cater to all age ranges.

Teacher Resources:

Comprehensive teacher resources and study notes are provided upon booking. These are specific for the age ranges attending.

New programs for lower primary and nursery ages coming in March 2011 !!

Our experience:
